An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, drawn to a method of screening, classified in class 210, subclass 656.
- II. Claims 8-13, drawn to an apparatus containing an X-ray, classified in class 210, subclass 198.2.

The inventions are distinct, each from the other because:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed could be used to practice another and materially different process.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Samuel L. Borkowsky on October 27, 2004 an election was made to prosecute the invention of Group I, claims 1-7. Claims 8-13

Art Unit: 1723

have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claims 8-13, drawn to a non-elected invention, has been cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Samuel L. Borkowsky on October 28, 2004.

The following is an examiner's statement of reasons for allowance: S.N. 10/206,524 is considered to be the closest art because it screens potential pharmaceutical compounds with a separation followed by detecting with an X-ray. The case has been allowed because the claimed combination of steps including the use of a size exclusion filter would not have been obvious from S.N. 10/206,524.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to E. Therkorn at telephone number (571) 272-1149. The official fax number is (703) 872-9306.
